WORK EXPERIENCE

Centrul de Pregatire "Hai la Olimpiada" Suceava   Nov 2021 - Apr 2022
Tutor, Team Coordinator
– held competitive programming classes for the county's Informatics team
– administrative role in the organization of the year structure and collaboration with other tutors

Centrul de Pregatire "Hai la Olimpiada" Suceava   Nov 2020 - May 2021
Tutor
– held competitive programming classes for the county's Informatics team
– collaborated in the organization of the final contest

PROJECTS

Focus   PlayStore GitHub

A timer that encourages working on tasks and projects by offering a game-like approach. It enables users to focus while gaining tokens and leveling up. This project was developed using software such as Android Studio, Gimp, and Figma, and programming languages such as Kotlin and Java.

Programmer's Clicker   GitHub

A clicker game about a programmer that needs to solve bugs in his software. This project taught me more about Android Developing, Graphic Design, Design Patterns and App Architecture.

EDUCATION

2022 - present	Bachelor's Degree in Computer Science at **University of Bucharest**	
2018 - 2022	"Stefan cel Mare" Highschool Suceava	(Grade: 10)
